

Pond aerators

Are you looking for oxygen, cooling, mixing, an impressive appearance or perhaps a combination of all of the above?

Waterix® devices are suitable not only for improving water conditions in lakes, ponds, golf course water pools and small boat harbours, but also for industrial and municipal wastewater and process water. Not forgetting the needs of fish and crab farms.

Waterix pond aerators are adding oxygen, circulating water and also cooling water and therefore ponds water quality will be better, there will be less algae and also aeration eliminates odors.
